Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a semiconductor device.
- II. Claims 7-13, drawn to a method of designing a semiconductor device.
- III. Claims 14-20, drawn to a computer system or apparatus for designing semiconductor device layout.

The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP j 806.05(9)). In the instant case, the device of the group I invention may be made by a materially different process. For example, the transistors of the group I invention need not be made having contacts nor be made having gate lengths chosen based on design criteria.

Inventions II and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP j 806.05(e)). In this case, the process of the group II invention may be practiced by hand in that the provision of first and second transistors and the selection of different gate lengths based on design criteria need not be performed using a computer system.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is advised that cancellation of non-elected claims is required.
